### Labor Day 2006: Picnic or Protest?

Here they go again! Today starts the latest round of marches designed to seal the amnesty deal. Beginning in [Chinatown](#), illegals are marching towards Speaker Hastert's office in Batavia, Illinois. Be sure to read about the well known beer company that is supporting this march and then call them at 1-800- 645-5376 to advise them that you will be boycotting their product.

They are calling this the "Justice March" in tribute to the new [Rosa Parks](#), Elvira Arellano. Read about how this illegal alien has broken our laws and is being given sanctuary by a Chicago church. Chicago Minuteman, Rick Biesada, and Ted Hayes of the [Crispus Attucks Brigade](#) attempted to visit with Elvira and attend Sunday services. The church [changed their worship time](#) in an effort to exclude them.

Members of the [Chicago Minutemen](#), [Midwest Minutemen](#), [IFIRE](#) and other groups will be waiting for them at [Rep. Hastert's office at noon on Labor Day, September 4<sup>th</sup>](#). Since most of you will be off work anyway, please sacrifice a couple of hours to stand with us to send a message to the Justice Marchers to..."Just March Home!"

## Maywood, California: Occupied Territory

Americans females were verbally and physically assaulted at a demonstration in Maywood, CA while police stood by and watched.

Here is the account of a female [journalist](#) who experienced some of their verbal harassment.

The American flag was lowered at the [Post Office](#) and the Mexican flag was raised in its place. This signifies that this location is under the control of the Mexican government.

You may recall that anarchy reigns in the sanctuary city of Maywood where the majority of the residents are illegal aliens.

## Immigration Hearing in Evansville, IN

We couldn't fill the bus that FAIR offered to provide but 20-30 IFIRE members from around the state made it to the hearing in Evansville anyway.

Please read a report on our experiences [here](#) and see photos by Glenda [here](#).
